Experience

UX at HERE Berlin   2017.04 - now

Drive design task in an agile team; bridge the gap between technology and user needs; conduct user research to reveal usability issues; translate them into practical design solutions; build and maintain design system.

Design Student at HERE Berlin   2016.05 - 2016. 12

Worked with product tool team as a UX designer, focus on the re-design of a localization software, both in UX&UI design.

Design Student at MarketLogicSoftware   2015.11 - 2016.02

Worked on frontend design & development, implemented the new design and features by html/css, js.

Intern at Design Research Lab of UDK   2015.07 - 2015.10

Design and implement Emergency Appral app, an Android app connected to smart cloth which can trigger an emergency phone call.

Designer & co-founder of Imfo   2014.09 - 2015.05 in Paris

Imfo is an student Entrepreneurship project we've worked on for half a year. The name 'Imfo' means image to information, it can extract editable text from pictures, so it solves the issues for foreigners to input unfamiliar local languages while they are travelling around the world.
